

Finesse

PERMANENT MAKE-UP

"Looking great all the time is not cheating!"

What makes Finesse make-up art special?

My perfectionism! I have a highly critical eye and passion for perfection. I've found that my clients are happiest with subtlety, which gives them a gentle natural enhancement.

About Health & Safety Issues

I use the highest quality of hypoallergenic, iron oxide pigments. The instruments I work with are all subject to the same stringent sterile techniques that any health care facility would use. I've built a reputation for excellence in both artistry and clinical standards.

Does it hurt?

This is a very popular question! I have a great topical that numbs the area.

What age groups have this done?

My clients range in age from 18 to 90.

Areas of Specialty

I am able to replace beautifully shaped eyebrows and replicate eye lashes to those experiencing unwanted hair loss due to cancer related treatments and alopecia.

How do I book an appointment?

Call Ann-Marie at Finesse Permanent Make-up for a free consultation.

EYELASH ENHANCEMENT

Eyelash Enhancement

is one of the most popular make-up procedures. This procedure supplements sparse eyelashes, making them appear fuller. All the work is done between the lashes. The beauty of it is that no one knows you had any work done due to the natural look you end up with.

Eyebrows

bring the whole face into balance. Not only do eyebrows frame the features of the face, but when properly defined they have the ability to alter the entire facial shape. Adds style and definition to sparse or half formed eyebrows by using the "Hair Stroke Method".

BEFORE

Eyeliner

is just what it says, all my work is done above the lashes creating a smooth flawless line. Lining the upper and lower lids adds depth and definition to the eyes.

AFTER

Lipliner

adds definition and can bring back the natural colour and shape you once had, or it can correct irregularities to create the shape you would like. Lip filler evens out the colour of the lips and helps prevent lipstick from bleeding.
